

Managing Your Concentration Risk

Concentration Risk Analysis

Segment Your Loan Portfolio to Analyze Your Risk Now and Over Time

Use the tool to break your loan portfolio to view at a glance your credit union's risk in the following areas:

- C, D and E paper credit reports
- Number of loans delinquent over 60 days
- Balance of delinquent loans
- Delinquent balance as a percentage of total portfolio value

The Loan Concentration Risk Analysis is accessed via “Ln Portfolio Concentration Risk” on the Management Analysis Dashboards (MNMGMD) menu.

The Concentration Risk Analysis is a powerful tool that will assist you in defending and managing your lending practices, as well as staying informed about the concentration risk associated with different segments at your credit union.

On the *Risk Analysis Selection* screen, begin the process of selecting what to analyze. Create segments by who owns the loan, by dealer, by loan category, or by purpose code, among a host of other options.

If you are just starting out, you might group loans together by G/L code. You might also want to group your segments in the same way that Historical Loss Ratios are calculated.

Enter the Analysis Screens to Review Your Segment Data

On the *Loan Risk Score Analysis Summary*, view at a glance the riskiness of the portfolio and the potential problems in the group.

This screen shows you how many of the loans are outstanding and gives you insight as to how many actual dollars are at risk at any one time.

You also have the ability to gather information on such things as the average balance due, average credit score, and loan maturity.

Review Three Additional Analysis Screens

From the entry analysis screen, proceed to the *Membership Breakdown* to view the breakdown of the loans by credit score, number, balance, or percentage of net worth. Additional collateral and product-analysis dashboards are also available.

Collateral Breakdown

Net worth 4,300,000

Collateral	Total Loan Balance	# Loans	# Loans w/ Collat > 0	Collateral Value	Value/Bal %	Portfolio %	% Net Worth	LTV %
AUTO COLLATERAL	3,154,399	204	204	3,854,894	122.2	100.0	73.3	81.82

Totals 3

Product View

% of loans with variable rates 0.0
% of loans with balloons 0.0 Average products per member 1.0

Loan Category	Total	% Total	% Net Worth
INDIRECT LOAN	3,154,399	100.0	73.4

Membership Breakdown

Concentration risk 73.35 % Net worth 4,300,000

	Segment Total	Member Total	Average	High	Low
Loan balances	3,154,399	3,965,022	15,133	144,696	29
Savings balances		419,985	1,016	38,957	106
Members	201	201			
Age			45	79	20
Current length of membership			4	39	0

Loans by Credit Score

Credit Score: 770 to 899, 740 to 769, 675 to 739, 620 to 674, 0 to 619

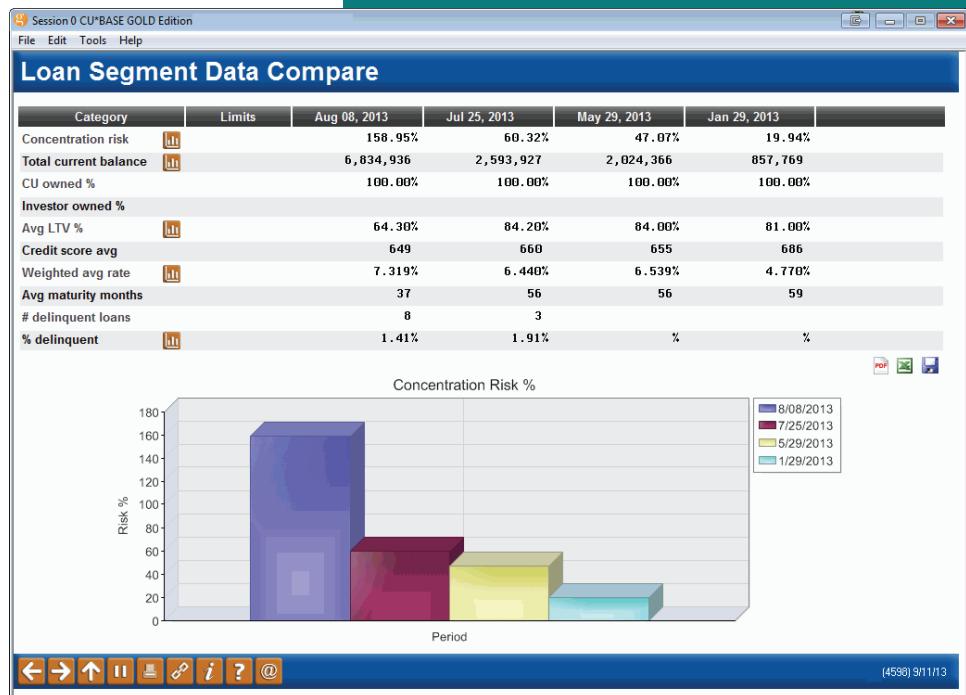

Balances by Credit Score

Credit Score: 770 to 899, 740 to 769, 675 to 739, 620 to 674, 0 to 619

From the *Membership Breakdown* screen, you can analyze your portfolio by credit score. For example, you might find you have a large percentage tied up in D and E paper both as a number of loans and as a percentage of net worth.

Once you have done this analysis, you will have a very good idea of how much risk your institution has undertaken.

Create a Snap Shot of Your Data to Compare Progress Toward Goals

The real power of this dashboard, however, is that it is also a trending tool. The *Loan Segment Data Compare Screen* allows you to do trend analysis on any portfolio segment or other risk group. You can easily track the size of the portfolio and its maturity, delinquency, and weighted average yield. The weighted average yield score is especially important as it determines whether your credit union is adequately compensated for taking on risk.

Other Publications

Check out the other brochures in the “Managing Your Concentration Risk” series, found under “O” and “P” on the CU*BASE Reference page.

Managing Your Concentration Risk
Packaging Loans For Sale

RISK MANAGEMENT IN FOUR EASY STEPS

- 1 After you are by several sectors, no longer need to score each sector individually.
- 2 Select from the resulting list to package grouping.
- 3 Select the part of the package you want to analyze. View calculations of your income from these loans.
- 4 Create the package and generate the "Package Summary" including average credit score.

More Than Just a Selling Tool

This tool is more than just a feature credit unions can use when considering if they would like to participate in a portion of their loan portfolio, this feature also allows management to generate a portion of the loan portfolio for concentration risk analysis, including servicing income and yield analysis.

Managing Your Concentration Risk
Analyze Outstanding Loans

CU*BASE Dashboards Evaluate Your Risk

Outstanding Loan Recap and Dashboard

The Outstanding Loan Recap (Action Code: GL) is a quick way to view all the outstanding relationships you have with a member (tracked by SIS), showing your member's loan balances (including related accounts which the member co-signs). It includes contingent liability, credit score, collateral information, service income, and more.

The Outstanding Loan Recap Dashboard (accessed via FP Analysis) lists the top member(s) per member's lending relationship, via six different analyses, providing detailed breakdowns of the member's credit scores (with grouping), contingent liability details, delinquency information and other information.
