

RAISE THE BAR ON YOUR BOARD REPORTS!

Wow your Board and Management Team with charts and graphs exported from CU*BASE GOLD Dashboards!

In addition to being able to export data to a comma-delimited text file and export data and charts to Excel, CU*BASE clients have the ability to export data and charts to Adobe's PDF file format. The PDF export is for you to provide attractive single click data and charts in a format that's ready to print and distribute to a credit union board and management staff.

A picture is worth a thousand words!

RAISE THE BAR ON YOUR BOARD REPORTS! (cont.)

WHAT'S REQUIRED?

In order for the PDF export feature to work, a third-party software called iText must be purchased. Clients may contact our Systems team if they need assistance putting the file in the workstation's GOLD directory. Once complete, you are set to begin using the PDF export capability. Refer to CU*BASE online help index key "PDF" for more details

Once the release is implemented, there is no feature activation required from CU*BASE. Using the PDF export capability is similar to Excel exports - GOLD provides the capability and interested clients need to have Excel software installed.

PRICING

Licensing from iText is a one-time charge and includes product updates for one year. Product updates/support after that initial year would be an annual charge of 20% of the current license rate. For example, a 10 pack of licenses costs \$1,200. Assuming no license price increase, updates for the second year would cost \$240. If the license price increased to \$1,500 the updates for the second year would cost \$300.

- **iText Commercial End-User Desktop licensing**
- **Perpetual license: purchase a license once and use iText forever**
- **One license per installation on a desktop**
- **Support included (see below)**
- **Product maintenance is 20% annual for updates**

PRICE	DESCRIPTION/QUANTITY	SUPPORT/UPDATES
\$160	Single user license	First year support is free, then 20% of the then current license fee annually.
\$1,200	10 pack of licenses	
\$2,080	20 pack of license	
\$2,880	40 pack of licenses	

GETTING STARTED

The sales contact is Kevin Brown - Executive Vice President, Sales & Marketing, iText Software Corp. He can be reached at kbrown@itextsoftware.com or 650.384.0463. For more information about iText you can visit their website at <http://www.itextpdf.com>.
