ONLINE BANKING MADE EASIER!

Want to be able to access all your accounts after logging into **It's Me 247** just once?
Need to grant another member access to your account information?
Now you can with the new *See* and *Jump* features!

SEE information in another account.

JUMP to another account to conduct transactions.

Just follow these **three easy steps** to get these features in online banking!

Call us and give us the account number to request the *See* and/or *Jump* features for yourself or another member (who is either the primary or joint owner on your membership share-000 account).

Choose how your account can be accessed. For the most flexible access, request See and Jump authority for all your accounts. To give another member access but still maintain your privacy, request See and Jump authority for them, but only to your joint account, not to your personal account. There are many choices. Call us for further details!

Start using these features by logging into your account, clicking My Accounts on the top menu bar, and then clicking My Other Accounts on the left menu bar. You'll then be able to See and/or Jump to another account depending on which accounts you requested these features for.

For more information about *See* and *Jump* or to request these features in online banking, call us at:

Success credit union

"I gave my daughter *See* and *Jump* access on all my accounts so that she can help me manage my expenses."

"I wanted my mom to be able to *See* my checking account information so she can help me with my budget."

"I'm so glad my wife has *See* and *Jump* authority on our checking account because now when I'm away on business, she can handle the finances."
