You'll need to activate it.  You'll need to work with a CSR to set it up.  There may be related fees; contact a CSR.

Year-End Release Information

Any tax and year-end projects have been deployed on demand. This release is a “catch-up” for updates to self-processors and will involve an update to the PTF library to bring them into sync with online and Site-Four credit unions.

All credit unions will remain on CU*BASE version 24.10.3.1 and will not encounter a Seagull unpacker window as there are no version changes.

Note that self-processors will receive the updates for the new authenticated member credit card application, with new features available in CU Publisher to allow configuration of the online loan app.

Once the new application is live, staff can access **Loan Manager** in CU Publisher to configure it and start using it right away. *Not a Loan Manager subscriber? [Sign up in the Store](#) today.*
